COURSES: 7th Grade Geography/**6th Grade History**

WEEKLY ASSIGNMENTS

7th Grade Geography - *Complete the political map for Asia

*Read “The Geology and Geography of Oil” and answer questions

6th Grade History – Read through sections on 6 different colonies and fill in matrix comparing/contrasting those colonies

LINKS TO READING

6th grade – teachtci.com

PLATFORM USING

Both courses: Google Classroom – all tutorials, links, directions, assignments will be posted on our Google Classroom page

DETAILS

7th Grade Geography – Directions with tutorial video are found on our Google Classroom site under title “March 30 – April 3”. There is a tutorial for each of the assignments. The first is our regular political map of the area only now you are doing it online. The second you will be reading about how oil is formed and where it is found and answering questions on a google doc based on what you read.

6th Grade History – Directions with tutorial video are found on our Google Classroom site under title “March 30 – April 3”. After watching the tutorial you will be reading about 6 of the original 13 colonies and filling in a matrix for each of the colonies found on google docs.

DUE DATE

4/3/20
